Wroclaw, Main Square

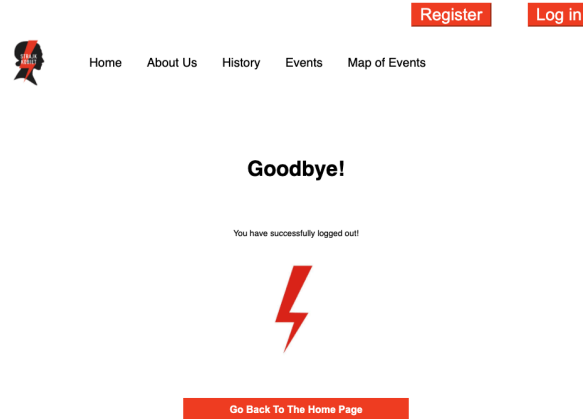

This is war!

Law permitting abortion in cases of severe fetal disabilities accounts for 98% of terminations carried out in Poland but the Constitutional Tribunal's ruling will mean an almost total ban. Once the decision comes into effect, terminations will ONLY be allowed in cases of rape or incest, or if the mother's health is at risk.

This divisive decision was pushed exactly when we need to be united more than ever, as the COVID-19 pandemic continues to pose a significant challenge. The timing made it impossible for the citizens to express their criticism towards the decision by participating in nationwide protests without the fear of persecution on the basis of the new coronavirus-era restrictions.
